## CAREER SUMMARY

- Over 10 years of experience coordinating global business operations, optimizing workflows, and supporting cross-functional teams in multinational companies such as VMware by Broadcom and IBM.
- Generated reports, statistics, and dashboards as required—using tools like Microsoft Excel and Power BI to analyze data, track performance metrics, and support operational improvements.
- Conducted reconciliation activities, supported inventory tracking, managed logistics documentation, and compiled audit-ready reports for internal reviews, compliance, and stakeholder reporting

## WORK EXPERIENCE

VMware by Broadcom - Bangalore, India  
Operations Coordinator (GSOC Team)

07/2017 - 02/2025

- Coordinated daily operational workflows across multiple VMware business units in APAC, India, EMEA, and the Americas, ensuring timely task execution and interdepartmental alignment.
- Collected, interpreted, and reported operational data using tools like Excel and Power BI, to track KPIs and make data-informed decisions.
- Acted as a liaison between internal teams, external vendors, and regional stakeholders to ensure efficient handling of service requests, asset tracking, and facility coordination.
- Supported inventory tracking and logistics coordination for physical security systems, access tools, and operational equipment across sites.
- Ensured accurate and timely documentation of incidents, operational activities, & support tickets using platforms like Cycop and Helpnow.
- Supported reconciliation and compliance activities across multiple departments, improving workflow efficiency and reducing risk exposure.

IBM - Bangalore, India  
Senior Admin (MIS)

11/2014- 07/2017

- Prepared and maintained MIS reports to support performance tracking and internal reviews.
- Led reconciliation processes and offboarding tracking to enhance compliance accuracy.
- Collaborated with departments to ensure seamless site access and badge management.
- Supported documentation for internal and external audits and investigations

## CAREER HIGHLIGHTS

Played a key role in ensuring operational stability and business continuity during the COVID-19 pandemic and the VMware-Broadcom transition, adapting quickly to evolving challenges.
