## About

**Working as Control Tower Manager with over 14 years of extensive experience in Supply Chain, Logistics, Warehousing, and Transportation at Tamer Logistics, one of Saudi Arabia's top 3PL service providers. Over the years, I have led complex logistics operations, supported key accounts like Nestle KSA as a Super User, and delivered end-to-end operational and digital transformation solutions.**

In my role, I have managed and optimized warehouse and transport billing for over 40+ major clients, ensuring cost efficiency, accurate reporting, and transparent reconciliation. Consistently driven performance improvements by bridging on-ground execution with smart, data-driven systems such as Control Towers, Dashboards, and Automated Reports.

As Nestle's Super User in Saudi Arabia, I've played a key role in training teams, resolving system issues, and supporting business continuity through innovative digital tools. My deep understanding of 3PL/4PL operations allows me to proactively identify bottlenecks and implement scalable, tech-driven solutions.

### Areas of Expertise

Control Tower Setup & Operations (Warehouse & Transport)

Logistics Execution & Optimization

Transport & Warehouse Billing

3PL / 4PL Operations

Process Automation & Digitization

KPI Monitoring & Performance Analytics

### Technical Skills

Python, VBA, Advanced Excel

Power BI, Google Apps Script, Web Design

MS PowerApps, Power Automate

SAP (Nestlé), Oracle LogFire (WMS), OTM (Transport Management)

### Key Achievements

Development of Control Tower systems for real-time visibility, issue tracking, and performance monitoring

Managed transport and warehouse billing processes for over 40 accounts with complete solutions (Working sheets, reports and even dashboards)

Delivered digital transformation projects including dashboards, automation, and reporting tools that reduced manual workload and increased efficiency

Supported end-to-end logistics processes including inbound, storage, dispatch, and last-mile delivery

Conducted presentations and reviews for Nestlé leadership, showcasing operational results, digital initiatives, and optimization strategies
